THERE ARE A LOT OF OPTIONS TO DISPLAY THE INFORMATION IN THE DESIRED FORMAT.

FIRST MAKE SURE CALCULATED TOTALS IS CHECKED FOR THE FIELDS YOU WANT TO TOTAL VALUES, IN YOUR CASE BOTH AREA AND VOLUME. THIS IS LOCATED WITH IN THE FORMATTING TAB OF THE SCHEDULE PROPERTIES.

NEXT UNDER SORTING/GROUPING YOU CONTROL HOW THE DATA WILL BE ORGANIZED. IVE SET MY SCHEDULE TO REPLICATE YOURS, JUST WITH DIFFERENT MATERIALS. BY UNCHECKING ITEMIZE EVERY INSTANCE IT WILL ONLY LIST EACH MATERIAL ONCE. BY CHECKING GRAND TOTALS IT WILL PROVIDE THE TOTALS AT THE BOTTOM WHICH YOU MAY OR MAY NOT WANT.
