<input type="checkbox"/>	3321 Glenrock.dwg	Michael Martin	CAD file	1.66 MB	December 12, 2014, 3:11 PM

But the same folder in AutoCAD 360 (beta) is empty:

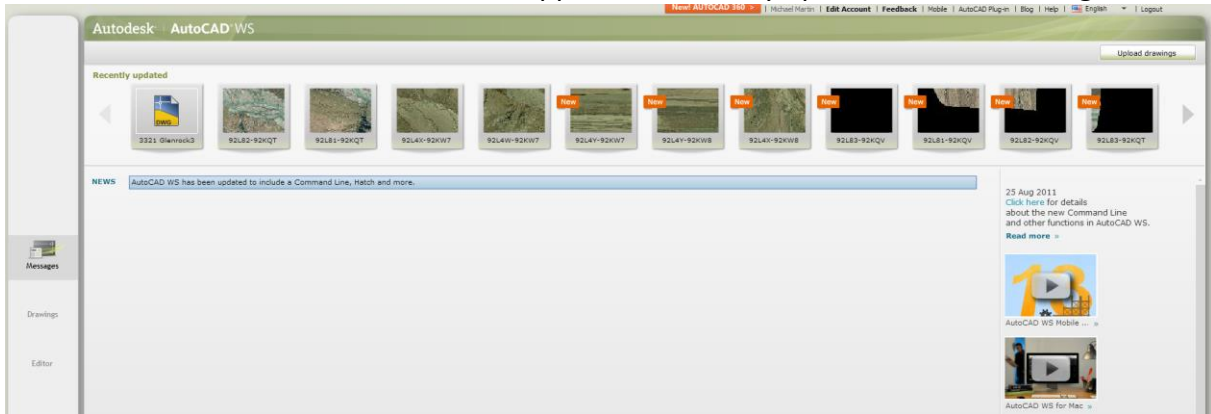

360 BETA All Drawings > CKM

Blog Send Feedback Help Go to autocad360.com Michael Martin

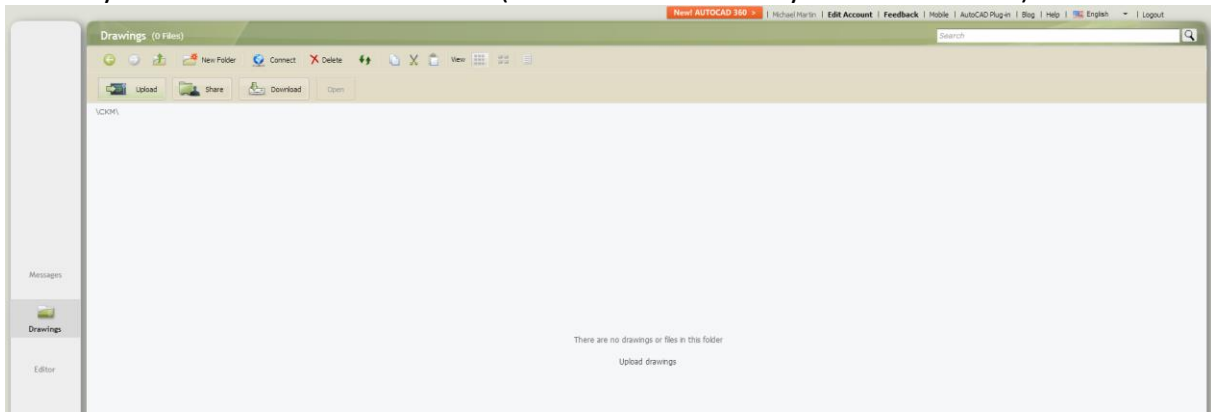

+ New Upload + New Folder

No files or folders

If I switch back to Autocad WS, the files appear as “recently updated” in the message area:

But they're not available in the folder (seems to indicate they've been deleted):

The files are there in my Autodesk 360 drive on my local computer (and it's synced):
