

DOWNLOAD THIS FILE FROM AUTO CAD SITE- NO ERROR MESSAGES

Please note I do not get any Akamai request or menu

DWG downloaded here when set-up DWG completed

No other action is provided from download to continue so I double click on this file

After double click, DWG True View goes through certain windows and the installation starts

Installation stops because this file cannot be found, did search on PC and this file cannot be found, similar situation happens with 10 more files, these files cannot be found on PC, program not installed
