Subject: SR# 1-3190232831 - Installation

Autodesk Subscription

Dear Justin,

Thank you for contacting Autodesk Support.

This message indicates that a newer version of MSXML 6 is already installed on the machine.

To install AutoCAD Architecture without this error, please follow these steps:

1. Copy the installation files to a folder on your hard disk.
2. In the folder with the installation files, locate the file setup.ini and save a copy of this file named setup.ini.OLD
3. Open the file setup.ini in a text editor such as Notepad.
4. Scroll down until you find the paragraph headed [MSXML].
5. Remove the entire paragraph headed [MSXML] so that the remaining file content in this section is now as follows:

```
[...]  
[DIRECTX]  
PRODUCT_NAME=DirectX 9.0 Runtime  
EXE_PATH=support\DirectX\DXSETUP.exe  
EXE_PARAM=/silent  
IGNORE_FAILURE=YES
```

```
[FLASH]  
PRODUCT_NAME=Flash  
EXE_PATH=support\flash\Install Flash Player 9 ActiveX.msi  
EXE_PARAM=  
UI_INFOTAINMENT_PATH=SetupRes\Infotainment\Flash  
IGNORE_FAILURE=YES  
[...]
```

6. Scroll down further to the paragraph headed [ACAD]
7. In the line starting PREREQUISITE=... delete the entry MSXML; so that the line is now as follows:

```
[ACAD]  
PREREQUISITE=OS;IE;MSI;DOTNET20;DOTNETLANG;VBA;VBALANG;DIRECTX;DWFV;FLASH;WMF;MDAC
```

8. Save the changes and close the file setup.ini.
9. Run the installation by double-clicking the file setup.exe that is located in the same folder as the modified setup.ini file.

Hope this helps!

Best Regards,

Jillian Bejtlich
