

CAN THIS AEC TAG  
HAVE TEXT WRAP LIKE  
THIS?

CHILDREN'S CLOTHING

The diagram illustrates text wrap for an AEC tag. A central question asks if the tag can wrap like the example on the right. On the left, the text 'CHILDREN'S CLOTHING' is shown in a single line. On the right, the same text is shown wrapped into two lines: 'CHILDREN'S' on the top line and 'CLOTHING' on the bottom line. Both examples are associated with the value '234.20 SF'. Arrows point from the question to both examples.

234.20 SF
