

This is what I get when I choose All Palettes

This is from one of the online solutions, but I can't find the "Customize Workspace" button

**Solution:**

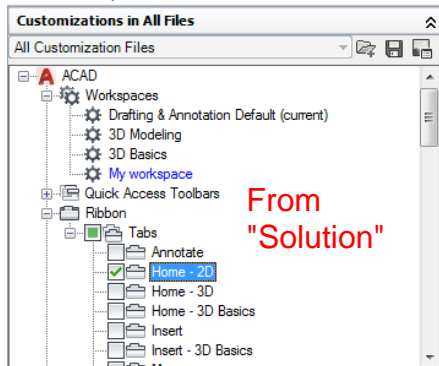

Do one or more of the following:

**Toggle Clean Screen Mode On/Off**

Clean Screen mode can be toggled on/off by pressing **Ctrl+0** on the keyboard.

**Verify that the Palette is Enabled**

1. Type **CUI** on the command line to start the Customize User Interface dialog box.
2. Select the workspace on the left.
3. Click the "Customize Workspace" button on the right.
4. On the left pane, the items will have checkbox activated. Tick the checkbox for...

5. Click "Done" at the top and then click "OK".

**Palette Display Position (X, Y) is Off-Screen**

Do one or more of the following:

- Edit the palette in the CUI editor. Using the Properties palette as an example,
  1. Enter **CUI** on the command line.
  2. Select the workspace on the left.
  3. Click the "Customize Workspace" button on the right.
  4. Expand "Palettes" and select "Properties"
