# IMAGINiT Utilities for Vault Client

The Indispensable Time Savers for Autodesk Vault Client

Autodesk Vault provides a great data management platform, and many organizations are adopting this system. However, certain workflows are needlessly manual, or impossible for non-CAD users. IMAGINiT Utilities for Vault Client addresses some of the most pressing needs of Vault Client users.

Developed by IMAGINiT's Software Development group in conjunction with IT and engineering professionals, each utility runs directly inside any* of the Vault products.

What's Inside Utilities for Vault Client

▶ **Create Folder from Template:** Quickly and easily set up complex project folder structures with the click of a button. No more manually creating directories, sub-folders or klunky work-arounds. Setup multiple templates per your project and/or office standards and make use of this time saver on your next project.

▶ **Extract Bill of Materials (BOM):** Create a BOM within Vault, based on your CAD data and export to Excel or CSV.

▶ **Create PDF:** Generate PDFs from Inventor IDW and DWG fiies at the press of a button using the Job Processor. The PDFs can be stored in the Vault or published to an external folder. If you need it more automated, IMAGINiT can also auto-generate jobs based on key lifecycle events (for example, releasing a file).

▶ **Batch Checkout of Files**:** Simple method of checking out multiple files at once.

▶ **Supports all Autodesk Vault Clients 2013 and 2014.**

Developed by the Autodesk Vault Experts at IMAGINiT Technologies

We have years of experience helping clients by delivering tools necessary to bring organization and security to their data. From large manufacturing clients to civil engineering firms and government agencies, clients rely on our data management experts to streamline processes and help them make efficient use of their data. An Autodesk® Authorized Developer, IMAGINiT is also a member of the Autodesk Developer Network. With technical specialists focused on design technology automation and customization, IMAGINiT has the largest group of professional software developers and project managers who customize, automate, and integrate Autodesk products for organizations of all sizes. www.imaginit.com/utilitiesforvaultclient

Free to IMAGINiT's Autodesk Subscription clients via the ProductivityNOW Portal. Ask your representative for additional details.

Rest assured that all your design and drafting data is safe, secure, and well-managed with Autodesk Vault and IMAGINiT Utilities for Vault Client.

*   Reduced capability on Vault Basic – no PDF Creation, because there is no Job Server.
** This utility available only on Utilities for Vault Client 2014.

About IMAGINiT Technologies

IMAGINiT Technologies, a Rand Worldwide Company,is the world's largest provider of enterprise solutions to the engineering community, including the building, manufacturing,civil and mapping industries. With 20+ years' experience, and 45 offices throughout North America, we provide the expertise, training and support to help companies realize the full power of design technology, maximize ROI and gain competitive advantage.

IMAGINiT is a leading provider of Autodesk software solutions and the largest North American Autodesk Authorized Training Center (ATC) partner. All of our locations are supported by a vast pool of engineering resources focused on developing real-life business solutions for their local clients.
