Autodesk® Storm and Sanitary Analysis 2012

Autodesk Storm and Sanitary Analysis : Error Occurred

An internal error occurred in Autodesk Storm and Sanitary Analysis that caused it to generate an exception.

We apologize for this error and any inconvenience that this may have caused you. Note that you can try to continue to run the software and save your work. If you have been running the software for some time, we recommend that you restart Autodesk Storm and Sanitary Analysis and re-load your data.

In order that we can attempt to find and remove this error, please send us the bug report that Autodesk Storm and Sanitary Analysis generated. Please include a detailed description of what you were doing when the error occurred. In that way, we will be able to attempt to reproduce and correct the error.
