

A hand-drawn technical drawing of a road cross-section. The drawing shows a road surface with a dashed centerline and solid edge lines. A red dashed line represents the proposed road grade, which is higher than the existing ground level shown by a green dashed line. The road is marked with yellow squares at regular intervals. A vertical purple line is drawn at station 277+00. A vertical red line is drawn at a point further to the right. The drawing is on a white background.

277+00
