

How to display a picture in Advanced Print View

1. In advance print view choose the element you want.
 - a. In this example its “-basic”

2. Find the “\${}” equal to the value of the picture field.
 - a. In this example its `${item.itemDetails.sections["basic"].fields.PICTURE.value}`
 - b. Copy “\${}” to a text editor (do not use word).

<code>\${workspace.metadata.itemDetails.sections["basic"].name.value}</code>	
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.PICTURE.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.PICTURE.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.AUTO_NUMBER.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.AUTO_NUMBER.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.LINK.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.LINK.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.MAKE.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.MAKE.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.MODEL.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.MODEL.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.PRICE.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.PRICE.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.COPY.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.COPY.value}</code>

3. Copy `` to line 2 of the text editor.
 - a. Add line one of the text editor into line two of the text editor, after the `?imageid=` and copy into line three

```
1 /*Item you want to use*/ ${workspace.metadata.itemDetails.sections["basic"].fields.PICTURE.value}
2 /*Base text*/ 
3 /*Finished Item*/ 
```

4. Copy line three and replace the item in the main element

<code>\${workspace.metadata.itemDetails.sections["basic"].name.value}</code>	
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.PICTURE.title}</code>	<code></code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.AUTO_NUMBER.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.AUTO_NUMBER.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.LINK.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.LINK.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.MAKE.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.MAKE.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.MODEL.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.MODEL.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.PRICE.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.PRICE.value}</code>
<code>\${workspace.metadata.itemDetails.sections["basic"].fields.COPY.title}</code>	<code>\${item.itemDetails.sections["basic"].fields.COPY.value}</code>

5. Adjust the high as seen fit (Do not use the preview option to gage picture size)
