

Product Registration Process

1. Click About button

2. Click on Register Product button that will generate request code and Product serial number.

3. Copy and paste the Request code in your E-mail and send to register@cadmanagertools.com with below details
- Your name/Company name
 - Product name (Batch-In-Editor or Batch-In-Database)

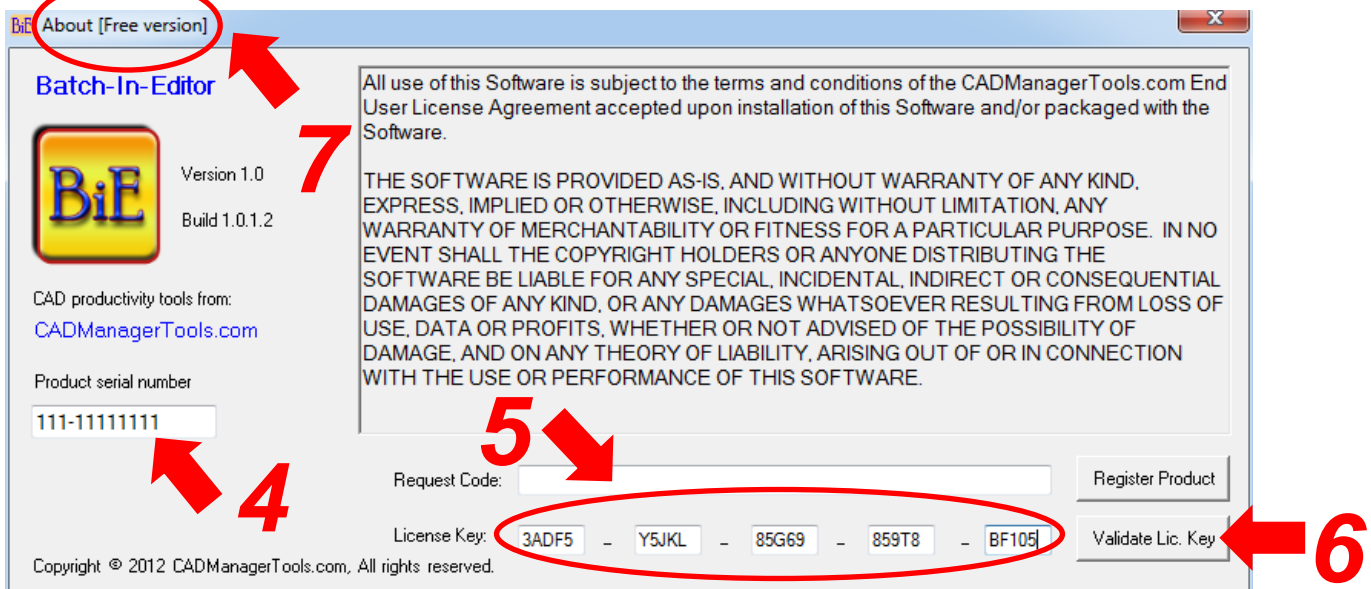

CADManagerTools - Product Registration

- c. Product Version (v1.0)
- d. Product serial number
- e. Request Code
- f. Build version(1.0.1.2)
- g. Country name

E-mail will be sent back with license key within 24 hours after verification of details submitted.

4. Enter Product serial number
5. Copy and paste the License key which you have received from CADManagerTools.com in the first License key box.
6. Click the Validate Lic. Key button and Close the tool (Not AutoCAD) and restart it.
7. Now the About dialog box will show [Full version] and the registration process feature will be disabled.
