

Style Conflict

The following style definitions in template C:\Users\Public\Documents\Autodesk\Inventor 2013\Templates\English\test-title block.idw differ from the definitions in the style library; the style library definitions will be used.

Object Defaults: Object Defaults (ANSI)

If the style definitions in the style library are intended for the new document, update the template with the new style definitions.
If the style definitions in the template are intended for the new document, remove these styles from your style library using the Style Library Manager.
