Installing Office 365 will remove VBA 7 modules and prevent Inventor 2014 from working properly

http://usa.autodesk.com/getdoc/id=TS21910314

Issue

Installing Office 365 will remove VBA 7 modules from your computer, leading to the following:

- Error messages are shown during Inventor 2014 launch
- Unable open any document from Inventor 2014
- Error messages are shown when executing VBA commands from AutoCAD

Solution

Standalone:
Close Inventor session and manually install VBA7 from Inventor source media:
64-bit
Install VBA7 from "3rdParty\x64\VBA\Vba7.MSI" .
32-bit
Install VBA7 from "3rdParty\x86\VBA\Vba7.MSI" .

Deployment:
64-bit
Deploy VBA7 installer to the client from "3rdParty\x64\VBA\Vba7.MSI".
32-bit
Deploy VBA7 installer to the client from "3rdParty\x86\VBA\Vba7.MSI".
