Installation Instructions

To install the Productstream Professional 2011 Server and Client Update for CAD 2013

Series on the Server:

1. Install Autodesk Productstream Professional 2011 RTM.
2. Install Productstream Professional 2011 Server Update for Microsoft Office 2010.
3. Install this Productstream Professional 2011 Server Update for CAD 2013 Series.
 - a. Download and Unzip the pspro2011_cad2013_fp.zip file locally.
 - b. Double click the pspro2011_cad2013_fp_Server.exe file on the server to begin the installation. When done, click Finish.

To install the Productstream Professional 2011 Server and Client Update for CAD 2013 Series on the Client if you are working with CAD 2013 Series:

1. Install Autodesk Productstream Professional 2011 RTM.
2. Install Productstream Professional 2011 Client Update for CAD 2012 Series.
3. Install this Productstream Professional 2011 Client Update for CAD 2013 Series.
 - a. Download and Unzip the pspro2011_cad2013_fp.zip file locally.
 - b. Double click the appropriate pspro2011_cad2013_fp_Client.exe file on the client to begin the installation. When done, click Finish.

NOTE: With patching this Server Update on your server, if some of your clients are still working with Inventor/AutoCAD 2012, 2011 or 2010 based products, it is required to install the Client Update on them.

To install the Productstream Professional 2011 Server and Client Update for CAD 2013 Series on the Client if you are working with CAD 2012 Series:

1. Install Autodesk Productstream Professional 2011 RTM.
2. Install Productstream Professional 2011 Client Update for CAD 2012 Series.
3. Install hotfix TS17323609.
4. Install hotfix TS17589850.
5. Install hotfix TS18041047.
6. Install hotfix TS18563127.
7. Install this Productstream Professional 2011 Client Update for CAD 2013 Series.
 - a. Download and Unzip the pspro2011_cad2013_fp.zip file locally.
 - b. Double click the appropriate pspro2011_cad2013_fp_Client.exe file on the client to begin the installation. When done, click Finish.

To install the Productstream Professional 2011 Server and Client Update for CAD 2013 Series on the Client if you are working with CAD 2011 Series:

1. Install Autodesk Productstream Professional 2011 RTM.
2. Install hotfix TS15488433.
3. Install hotfix TS15511540.
4. Install hotfix TS15872844.

5. Install hotfix TS15814596.
6. Install Productstream Professional 2011 Client Update for CAD 2012 Series.
7. Install hotfix TS17120567.
8. Install hotfix TS17323609.
9. Install hotfix TS17589846.
10. Install hotfix TS18041030.
11. Install hotfix TS18221222.
12. Install this Productstream Professional 2011 Client Update for CAD 2013 Series.
 - a. Download and Unzip the pspro2011_cad2013_fp.zip file locally.
 - b. Double click the appropriate pspro2011_cad2013_fp_Client.exe file on the client to begin the installation. When done, click Finish.

To install the Productstream Professional 2011 Server and Client Update for CAD 2013 Series on the Client if you are working with CAD 2010 Series:

1. Install Autodesk Productstream Professional 2011 RTM.
2. Install Productstream Professional 2011 Client Update for Inventor/AutoCAD 2009 and 2010.
3. Install hotfix TS15511540.
4. Install Productstream Professional 2011 Client Update for CAD 2012 Series.
5. Install hotfix TS17120567.
6. Install hotfix TS17323609.
7. Install hotfix TS17589846.
8. Install hotfix TS18041030.
9. Install this Productstream Professional 2011 Client Update for CAD 2013 Series.
 - a. Download and Unzip the pspro2011_cad2013_fp.zip file locally.
 - b. Double click the appropriate pspro2011_cad2013_fp_Client.exe file on the client to begin the installation. When done, click Finish.

[Return to Top](#)

Issues Addressed

- While opening an assembly within Inventor 2013, connection lost between Productstream Professional and Inventor after some time of inactivity with the open reservation dialog.
- Horizontal scroll bar of the list views might not scroll to correct position after applying a column filter.

[Return to Top](#)

Known Issues

- Productstream Professional cannot open files within Inventor 2013 if Inventor application launches with Welcome Screen. It is recommended to turn off the Welcome Screen in Inventor, by unchecking "Show Welcome Screen on start-up" option under Tools Tab -> Application

Options -> General -> Start-up.

- While using Inventor 2013 application, some Productstream Professional client functions might not work as expected on the files created by Inventor 2011 or any older version. It is recommended to migrate those legacy files to Inventor 2013 version.
- Productstream Professional commands might not show up in Inventor Quick Access Toolbar after restarting Productstream Professional Client and Inventor, you may have to add those commands again.
