Pictures, references, practical examples:

Lightning protection with all components:

Lightning protection (round wires) mesh on flat roof

Lightning protection on flat roof

Self-supporting Air-termination Rods with tripod

Small air-termination rods on flat roof

Air-termination system with connection to gutter

Test Joint with Number Plate

earthing terminal

Foundation earth elctrodes (strips)

Cross piece/T-piece for stripes

Foundation earth elctrodes in the concrete reinforcements

Connection between down conductor and earthing system

Round wires and earthing strips

Cross piece

T-piece

Air-termination conductor

Earth Rod

Foundation earth elctrodes as round wires in the concrete reinforcements

Surface earth elecktrode (ring earth electrode) under the foundation
