Solution to view the Piping properties:

1) Right click and Select "Selection Inspector"

Make sure that selection is set to "Set Selection Resolution to Last Object" or to "Geometry"

2) Select "Quick Property Definition"

items sele	cted		Quick Property	Definitions	ave Selection
	SmartPlant 3D Fabrication Iso	SmartPlant 3D Description	SmartPlant 3D PipeRun	SmartPlant 3D Commodity Code	
D 🗶 🗇					

- 3) Click the green (+) button to add a property
 - a. In the Category field, select "SmartPlant 3D"
 - b. In the property field, select the S3D properties you want to see or add.
 - c. Keep adding the properties as you want. Select ok when done.
