

GEOMETRY ■ S

BIM IN REVIT

geometry-s.com

A B O U T

The project Bureau "GEOMETRY-S" was founded in 2012 in the city of Dnipro, Oleh Samchyk .

The Bureau specializes in the design documentation in the field of engineering:

- HVAC
- Water supply and sewerage (Plumbing)
- Boiler rooms
- Heat Stations
- Cooling Stations

The project documentation is designed in the Autodesk Revit in full three-dimensional detail, which allows obtaining the most accurate specification, and to fulfill all the constituents of the design process.

We have experience in designing building engineering systems in Germany, China, Latvia, Estonia, Canada, and other countries.
